# What do we have in stock? Complete packages from one source.

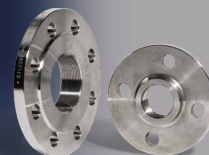

Welding neck flanges

Blind flanges

Lap joint /  
slip on flanges

Threaded flanges

Elbows

Tees

Reducers

Caps

Drawing parts

## Our stock range

P250GH || P235GH TC1 + TC2

16MO3 || 13CRMO4-5

P355QH1 || P265GH || P280GH

SA105N || SA234 WPB

SA350 LF2 || SA420 WPL6

1.4404 || 316L || 1.4401 || 316

1.4571 || 316Ti || 1.4541 || 321

## Our supply range

includes all grades with certification and documentation. Third-party inspections such as TÜV, DNV GL, LRS, ABS and according to customer requirements.

## Materials EN, DIN, ASTM

carbon steels

stainless steels

alloy steels

low-temperature steels

non-ferrous metals

nickel alloys

# WITTE FLANGE. The Flange People.

WITTE FLANGE offers:

- a comprehensive range of flanges, fittings and elbows
- all common materials, nominal sizes and pressure ratings
- extensive stock and supply range
- own machine shop for custom made parts and small series
- competence, commitment, flexibility and more than 60 years of experience

# The WITTE machine shop: customized solutions.

Even if a part is not in stock, it doesn't mean we can't deliver it. In our machine shop we modify flanges, fittings and bends – according to your wishes and specifications. In order to meet the steadily growing demands of the market, we are constantly expanding our machinery, training our employees and, of course, we are certified according to PED and AD 2000-WO.

**In addition to the machining of weld fittings and flanges, we also manufacture parts made from full bar material.**

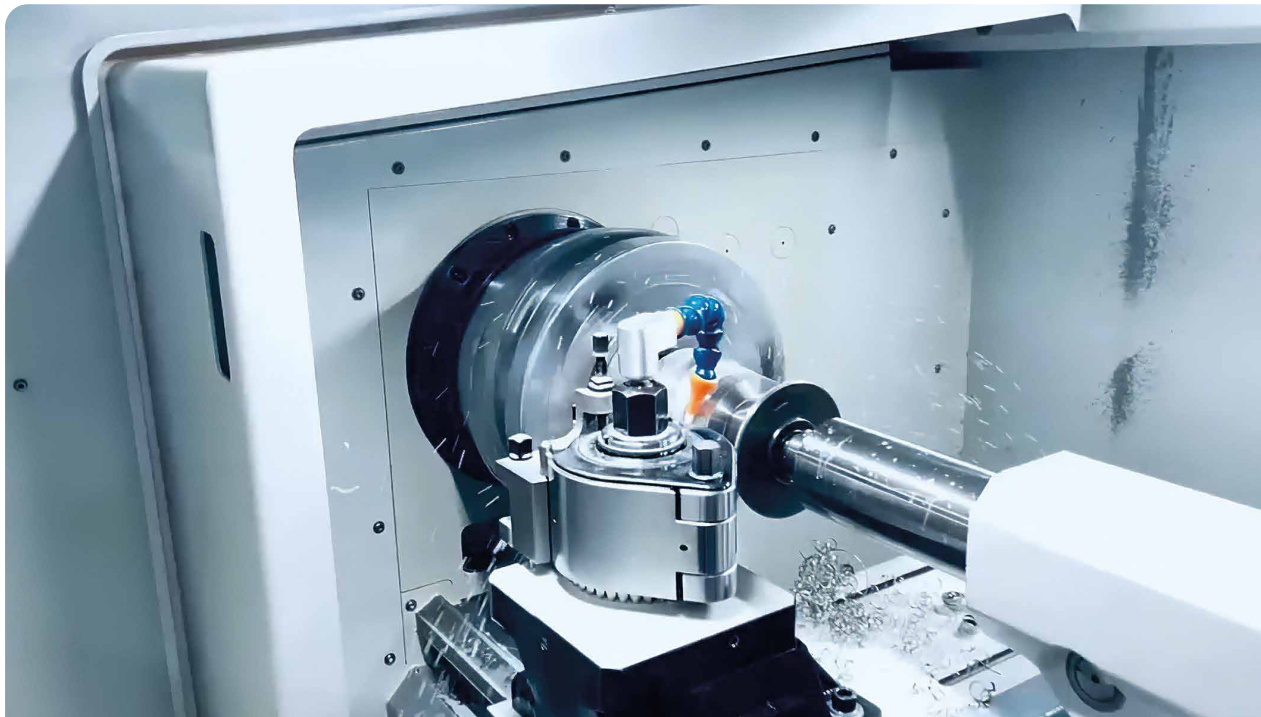

## **Machining:**

- turning of the connection dimensions (S) – from ½" to 24"
- cutting of pipe bends to any angle – from ½" to 24"
- surface treatment of flanges – Rz, Ra 0.5 to 160

## **Manufacturing:**

- concentric and eccentric reducers from ½" to 12"
- tees from ½" to 12"
- threaded parts (welding nipples, double nipples, sockets) from ½" to 4" – R, Rp, G, NPT, BSP/R, BSPT/Rp, BSPIIG
- hexagonal parts (such as hexagonal plugs, hexagonal double nipples) from ½" to 4"

**We manufacture individual parts and small series with a dimensional accuracy of 0.1 mm. Other parts as per drawing.**

# We are WITTE. The Steel Partners.

Three strong companies, one big goal:  
Your complete satisfaction.
